

TRAVEL DETAILS.

The retreat is way out in the rural area of central Florida. It is about 2 hours drive from Orlando airport if one rented a car.

I do have driving instructions in a PDF that i can send anyone who wants to rent a car and drive directly.

The goal is to get as close to Daytona Beach as possible.

There are three airports really working in our area.

[Daytona Airport DAB](#) - is the closest and easiest..and if you add up transportation to us after the airline cost...it may be worth the extra money it costs to make the final destination stop...into our area.

[Jacksonville JAX...](#) which is a little easier for west coasters sometimes...but definitely those that fly in there...would have to rent a car. Not the one we are most familiar with but some use it from your area. You would get in more in the later afternoon evening time.

Then drive to the Flagler Beach/ Palm Coast area and sleep overnight there and meet me in the am in the lobby...

where i can take you or anyone flying that way...to the retreat and back each day.

or there is ...

[Orlando International ORD](#)...there are a few ways to get to us from there.

This airport has two shuttles. One is called DO Shuttle and the other DOTS shuttle.

They will each drop you into Daytona Beach.

This is where i can come and pick you up...from their shuttle drop offices...if the time is good timing...this means not late!

I can bring you to the retreat from there or to the hotel... just need to see the arrival times.

They both have links on the web.

they are around \$35 each way

and you can buy a round trip and save a little.

"Do shuttle" will take you to the hotel for a little more... saving a taxi ride if you come in late.

The hotel we usually have people stay in ...is really close to our home office (which is not at the retreat)

This is Hampton Inn Palm Coast 1-386-439-8999

It is usually about \$80 per night. and sometimes a group of nights gets you something off.

I can see about working out a package for you with my connections.

You would not need to rent a car...i can pick you up each day and also take you around.

We live 7 minutes from it.

The retreat is 45 minutes from there into the area of the Ocala National Forest.

it is super private...and big nature...albeit no mountains!

The ocean is 3 minutes from the hotel...and it is a nice little beach town. We will definitely take you there.

There is a Hampton also right near the Daytona airport which works for the later flights.

free to and from airport shuttle too. 386-257-4030

There are hotels on the beach too...one is called The White Orchid in Flagler Beach.

Super sweet...more money though...around \$100 per night...but you can walk right out on the beach...eat breakfast which is included looking at the ocean. it is a small European type of a place...with pool in center and gardens all around.

Remember it is Florida and not fancy LA...we do not have the money people here to support much...it is laid back and natural.
