Nana Iyanifa Ifajube (Barbara)

Barbara, Iyanifa Ifajube, Ifa and Nana Buuken Priest, is a dedicated member of the Nana Buuken Society. Her passions are project management in the field of social inclusion, teaching and translating, however, her unconditional love is dedicated to the exploration of Ifa energies on every step of her destiny. In this sense as an Osun Priest with Ifa Oracle in her heart she loves observing the development of her own potential as well as the potential of many people she has empowered.

Transformation of those ancestral lineage patterns that block the flow of our lives is also a subject of her deep exploration as she believes that our own empowerment is directly connected to the empowerment of our ancestral and spiritual realms.
